## PROCEDURE FOR VALIDATION OF FOREIGN CREDIT

University policy dictates that all coursework taken outside the United States must be cleared through the appropriate UNC-Chapel Hill department before credit can be awarded. Please review departmental location and telephone numbers below. It is important to note that some departments will only award credit by exam only (see \* below). It is the applicant's responsibility to contact the appropriate department. You should present the department with any documents, transcripts, syllabi, or any available supporting information regarding the courses you have completed. If a department recommends credit for you, a written statement should be submitted to the UNC Eshelman School of Pharmacy by the department.

*Please note: The UNC Eshelman School of Pharmacy does **not** evaluate foreign credentials.*

### **DEPARTMENTAL CONTACTS:**

(Area Code is 919)
